**REQUEST FOR RECONSIDERATION**

Commissioner for Patents

Sir:

In reply to the Office Action dated January 11, 2005, applicants respectfully request reconsideration of the above-captioned application.

The Office Action includes a rejection of claims 1, 3-14 and 16-25 under 35 U.S.C. §103 as allegedly being unpatentable over the Russo et al patent (U.S. Patent No. 6,535,622) in view of the Abtahi et al patent (U.S. Patent No. 5,509,083). This rejection is respectfully traversed.

In characterizing the Russo et al patent, the Office suggests that it discloses evaluating whether a recorded fingerprint originates from a latent fingerprint on a sensor or from a finger placed on the sensor on the basis of the location of the recorded fingerprint on the sensor. The Office also suggests that the Russo et al patent is silent as to the specific details of the sensor and particularly whether it has an integral coordinate system.
